## About Me

I am a passionate, creative, and driven recent IT undergraduate eager to embark on a career journey as a UI/UX Engineer intern. I am highly motivated to immerse myself in the dynamic realm of user-centric design, seeking opportunities to learn and apply my skills in crafting intuitive and engaging digital experiences. I am enthusiastic about gaining hands-on experience and expanding my knowledge within the UI/UX field.

## Experience

## Protects

### Car Park Management System
Second Year | Software Project

Our web-based application, developed as part of our second-year industry-based project mentored by WSO2, revolutionizes car park management. By seamlessly connecting car park users, owners, and administrators through our user-friendly web application, we have created a reliable, efficient, and secure system. Our innovative solution enhances the overall parking experience while effectively addressing the challenges associated with traditional manual systems.
Technologies: ReactJS, MySQL, Node.js

Automated Wheelchair
First Year | Hardware Project
An automatic wheelchair was developed for disabled and elderly people whose limbs are not strong and cannot move alone at home. I learned about microcontrollers and stepper motors through this project.
Technologies: C Microcontrollers used: ATMega32A
